COST TO BARRE

the reports of the superintendent of the poor for the city of Barre:

Extra cost for 6 months of license \$1,000 It is not this extra cost, to offset which the open saloon offers nothing, that is uppermost in our thought. It is the greater amount of privation and misery which the open saloon causes, of which these figures bear eloquent and unrefut-

able testimony.

There are those who are willing to make money at the expense of the misery of others. These are in favor of the open saloon. There is no question that the majority of the citizens are in favor of no license. The saloon men are in hopes that you will stay away from the polls March 2 and allow them to dictate the policy of the city of Barre. Are you going to do so?
